Total incl. 10% safety margin	273.884

Accounting period: 01.01.2025 to 31.12.2025

Description of system boundaries: The greenhouse gas inventory of Parkhotel Engelsburg Betriebs GmbH for the year 2025 was prepared in accordance with the recognised standard "Greenhouse Gas Protocol" and covers the areas of Scope 1-3 that are under the control of the company. Recognised databases such as, among others, Gemis 5.1, EEW, UBA or ifeu were used to determine the emissions. A safety margin of 10% was applied in order to account for any quantities in Scope 3 that may not have been included in the inventory. In Scope 3, some extrapolations were made which involve a degree of uncertainty. Note: This certificate documents the corporate greenhouse gas inventory; it does not constitute an award, certification or independent verification. No advertising claims such as "climate neutral" or "climate friendly" can be derived from it.

The inventory was prepared by:
